

Mr. Chairman

In essence the actions of the Pakistani occupiers towards Baluchistan and its people amount to nothing less the systematic elimination and genocide of the Baluch people and rustles exploitation and plunder of Balucistan natural recourses.

Mr. Chairman

The fundamental bases for the occupation of Baluchistan in 1948 by Pakistan's Punjabi military was to accommodate the excess population of Punjab by ethnically flooding Baluchistan and exploit its recourses to sustain the growing Punjabi ethnic group.

In the 1970s the Cully concentration camp was established especially for the Baloch and now the ATF prison branded by the baloch bar association as the and Abu Gharaib of Balochistan holds scores of Baloch patriots.

Mr. Chairman

The crime of the secular and democratic people of Baluchistan is that they want to live with dignity and peace in their motherland and not under the yoke of the religious fundamentalist military establishment of Pakistan who are a serious threat to regional and international peace and security.

Amnesty International, Human Rights Commission of Pakistan, leaders of many political parties, Chief Justice of the Supreme Court of Pakistan, scores of legislators, numerous civil rights groups and NGOs have raised clear and unambiguous voices of concern, anguish and anxiety against the forced disappearances and inhumane torture of our political activists.

However, Pakistan's military establishment doesn't seem to be deterred to carry out crimes against humanity and violations to basic human rights safeguarded in the UN charter of human rights.

We request the international community and the UN, working group on disappearances in particular to go on a fact finding mission to Pakistan occupied Balochistan to press upon Pakistani government to stop the forced disappearance of the Baluch and Sindhi political leaders and activists and produce those who are languishing in their torture centres. We request the Working Group on Forced or Involuntary Disappearances to come and visit balochistan where forced disappearances are currently at an all time high.

Thank you Mr Chairman.
